SKILLS

- .Net • .Net Core • React • Angular • NodeJs • MSSQL • Azure

WORK EXPERIENCE

ForestX   Jul 2024 – Present
Software Engineer

- Engineered Azure Functions and messaging workflows to streamline data transformation across services.
- Designed Service Bus topics for 12+ message types, boosting system reliability.
- Migrated databases using SQL Server, automating schema updates and saving 10+ hours.
- Built Angular pages enabling supplier and regulatory communication, reducing 200+ manual hours.

Disprz   Sep 2023 – Jun 2024
Associate Software Engineer

- Developed full-stack solutions in .Net Core and React within microservice architecture.
- Built auto-save for 100k+ users, improving UX and data integrity.
- Created custom components and APIs, enhancing performance by 12%.
- Used Azure Service Bus for async messaging, reducing manual ops by 20 hours weekly.
- Ensured 100% code coverage via unit and integration tests.

Wipro   Sep 2020 – Sep 2023
Software Engineer

- Built .Net + React tools for data upload and analytics, achieving 100% client satisfaction.
- Improved data processing by 30% via upload optimizations.
- Developed SQL procedures to increase automation by 20%.
- Contributed to internal healthcare tools using Java and Node.js.
- Fixed bugs, reducing system errors by 20%.

PROJECTS

- **Online Pizzeria**   ⊙
- **Crypto Tracker App**   ⊙   Demo
- **Typing Master**   ⊙   Demo

EDUCATION

Vellore Institute of Technology   2016 – 2020
B.Tech in Electrical and Electronics Engineering
Minor in Computer Science

Narayana Junior College   2014 – 2016
Class 12th – State Board
